About Us

Welcome to Farmhouse Café! Our mission is to provide consistent, good-tasting food to the community of Hollister. In order for our meals to be the highest quality and nutrient-dense possible, our menu centers around the food available from our local, organic farmers and food producers we are proud to partner with.

Owner Becky Herbert is the 5th generation in her family to work in the San Benito County agriculture industry and has been doing so for the last 14 years when she returned to her roots to help her parents, Pat & Patti Herbert, market their produce through their Community Supported Agriculture Program.

When Pat retired from growing all of the vegetables for the program, Becky partnered with local farmers she grew up knowing and started her own business, Eating with the Seasons, to continue serving the members she became friends with. Connecting with her customers through food ignited a passion for cooking that led her to add prepared meals to the business after members frequently expressed their challenge over not having enough time in their busy schedules to cook healthy meals for their family daily. Farmhouse Café is Becky's next step to provide busy people with quick, delicious and healthy meals. However you like to get your meals - Stop in, call in, go online to order - we are here for you!

Some of Our Food Community Farmers & Producers
